PROFESSIONAL SUMMARY

Results-driven web developer with expertise in full-stack development, leveraging proficiency in Java, Python, HTML, CSS, JavaScript, PHP, React, Node, and MongoDB to design and deliver high-quality web applications, with a strong focus on responsive web design, cross-browser compatibility, and user experience.

TECHNICAL SKILLS

Java • Python • Html • CSS • JavaScript • Php • React • Node • MongoDB • Firebase • Express • Flutter • Street View Map • Responsive Web Design • Cross-Browser Compatibility • User Experience • Full-Stack Development • Agile Methodologies • Version Control Systems • API Integration • Database Management

WORK EXPERIENCE

Diploma Trainee Engineer — 23/12/2021 - 22/12/22

BAJAJ Auto Pvt Ltd Chakan, Pune

- Utilized problem-solving skills to develop practical solutions in a real-world engineering environment. Collaborated with team members to achieve project goals and deadlines. Demonstrated adaptability and flexibility in a fast-paced industry setting. Applied Agile methodologies to manage project timelines and resources effectively. Utilized version control systems to track code changes and collaborate with team members.

Web Developer — 20/02/25 - 20/02/25

Edu-Revo

- Designed and developed web applications using HTML, CSS, JavaScript, and PHP. Implemented responsive web design principles to ensure cross-browser compatibility and user experience. Collaborated with team members to identify and resolve technical issues. Integrated APIs to fetch and display data from external sources. Managed and optimized database performance using MongoDB. Utilized Firebase for authentication and authorization.

PROJECTS

KSRTC Connect

KSRTC Connect is an Android application designed for real-time bus tracking using live driver location data. The app enables passengers to track the current location of KSRTC buses accurately and view nearby bus stops for better trip planning. It supports multiple languages to ensure accessibility for a diverse user base and improve overall commuter experience.

AI Based Smart Platform for Career Development

An AI-based career development platform that analyzes resumes using NLP techniques to extract and store candidate information. The parsed data is used to power features such as resume building, mock interviews, speech tests, and personalized career guidance including job and career path recommendations.
