Participated in code reviews and ensured adherence to coding standards. Applied problem-solving skills to resolve technical issues and improve overall system performance.

## PROJECTS

### KSRTC Connect

KSRTC Connect is an Android application designed for real-time bus tracking using live driver location data. The app enables passengers to track the current location of KSRTC buses accurately and view nearby bus stops for better trip planning. It supports multiple languages to ensure accessibility for a diverse user base and improve overall commuter experience.

### AI Based Smart Platform for Career Development

An AI-based career development platform that analyzes resumes using NLP techniques to extract and store candidate information. The parsed data is used to power features such as resume building, mock interviews, speech tests, and personalized career guidance including job and career path recommendations.

## EDUCATION

**Govt Higher Secondary School Kuttikattoor** — **2018**
Plus Two
